This is not a good game!!. Another bad gamemaker game.. If you can't be bothered to proofread (or hire a proofreader) for your game that has a large amount of text then why should I be bothered to play it?. INDIE TRASH

YOU'RE BETTER OFF PLAYING A PROPER PS1/PS2/NES GAME THAN WASTING YOUR TIME ON THIS TRASH  
0/10 SHAME ON THE GAME DEV. I feel like this game was neither proofread nor playtested before release here. The janky grammar and bad translation(?) definitely feel like older jrpgs, but I'm not sure that should be billed as a selling point. And the first fight--or at least the only one I can locate--appears to be impossible. This is NOT "an example of what can be achieved using RPG Maker, while working with the basic engine features". This is, in its current state, a rather sad and unplayable example of how to feel ripped off while spending less than 60 cents.. This is not a good game!!. great game ,recommend for anyone. I have finished the game although it has many bugs.

The achievements have broken pictures.

I have found many empty bottle but i can't fill it at the pond; I have the crystal but i can't give it to the shopkeeper, so i can't get the achievements done.

I don't recommend it.

RPG Maker strikes again! This is another low effort retro-pixel JRPG ripoff spamming the Steam catalog, made with the RPG Maker video game construction kit... in their own words, "Our easy to use tools are simple enough for a child."

This isn't even a good RPG Maker game.

Gamers who want a good retro gaming experience would be better off playing the original Final Fantasy games or one of the better RPG Maker games.. Is it just me or is the first enemy in the game (Sharr) unbeatable... I have 140 hp and i just get stunlocked with Confusion, Deep Sleep, Confusion, Terret hit himself for 25 damage, Sharr attacks! -21 damage, Terret attacks, miss. Sharr used confusion, Terret hits himself for 24 damage <GAME OVER>. Normal oldschool RPG.. I did not use this game to farm trading cards.. A slow narrative start is only diminished more the errors in the writing. Opening with no combat abilities provides only the blandest first taste of what the game has to offer.
